SOFIA, Nov.10 - ANA _ Comrade Ali Nasser Mohammad, Secretary General of the Central Committee and Chairman of the Presidium of the Supreme People's Council and Premier praised the relations of friendship and cooperation linking Democratic Yemen with People's Bulgaria and the joint struggle against world imperialism and its lackeys.

The following is the text of the speech delivered by Comrade Ali Nasser: "Dear Comrades. I address to you my thanks and admiration for the warmth of the reception and feelings of mutuality and frendship with which we were surrounded ever since we laid our feet on the capital Sofia. We are very happy to visit People's Bulgaria with which we are linked by relations of friendship and cooperation and common struggle against world imperialism and its lackeys. Our meetings in Sofia with our comrade leaders of the Bulgarian People's Republic topped by Comrade Todor Zhivkov, for discussing issues connected with cooperation between our two countries and those issues connected with the struggle for liberation, independence and peace and socialism are extension for those meetings held by us with our comrade leaders in the Socialist Community.

"Comrades. We heard the speech of Comrade Todor Zhivkov and I wish here to express thanks and admiration for the good feelings and gestures contained in the speech towards our people and its struggle for safeguarding its national independence and realising social progress. I also extend great thanks to the leadership ofthe Party and State inthe Bulgarian People's Republic for the medal granted to me which I consider to be not a personal admiration only but also an admiration for our party and people. I wish to express my satisfaction over this admiration and say that I view the comradely relations between us with all pride and prestige and it will remain an immortal memory consolidating our comprehensive friendship and cooperation and the interests ofour two peoples and realisation of the noble objectives of our two parties. I can say that we in Democratic Yemen hide for the friendly Bulgarian people all admiration and respect and also greet the glittering accomplishments achieved inthe course of construction of Socialism this is because the victory of Socialism in Bulgaria strengthens the position of the Socialist community and represents their unity and cooperation with the struggle of the peoples of the world for the victory of the examples of freedom social progress and the march towards socialism.

"Dear Comrades,

Our country has paved, after winning independence, its way towards the future taking the road of free development, the road hostile to world imperialism and the capitalist attitude. We have been able through the years of national independence to realise a lot of revolutionary transformztions in the interest of the workers and toilers topped by the establishment of the Yemeni socialist Party, the party of the Yemeni working class. Wehave also achieved other successes in the leadership of the sector of the State and cooperatives and expansion of the democracy of education and health, improvement of the living standard of man, and introduction of planning in theoperation of development of the national economy, which is the fruit of the revolutionary effort made by our Yemeni Socialist Party and the fruit of the work of our people for accomplishing the tasks ofthe national democratic revolution with its socialist horizons.

"We in democratic Yemen, are not directing efforts towards accomplishing the tasks of social progress only but are also directing them towards the re-unity of our Yemeni people on democratic and peaceful bases and dedicate our struggle at the same time against the plans of world imperialism and reaction which is in collusion with it and which aim at subverting the peaceful

the peaceful efforts being made by us at the level of the Yemeni arena for uniting our people and for the stability of the area.

"Dear Comrades,

When we look at the map of the world conflict between the forces of progress and socialism and the forces of imperialism it appears crystal clear the impressive victories achieved by the world revolutionary movement as in the recent years the struggle of these forces extended and they achieved new victories which made world imperialism loose important positions which it was using in its attack against the world revolutionary movement. The cooperation of the socialist system and the victory of the struggle of peoples in Vietnam, Iran, Afghanistan and Ethiopia, Angola, Mozambique, and Zimbabwe, Nicaragua and Grenada and other places demonstrates new evidences confirming that our present age is the age of the revolutionary forces which aremarching forward withfirm steps confident of the future. But, while noticing the growth of the power and strength of the revolutionary movement and at a time in which the progressive mankind is celebrating the 64th anniversary of the Great Socialist October Revolution, we must not belittle the class enemy. This is because the imperialists are still upto this moment making all endeavours to safeguafd their interests and their attitude to exploit the wealths of peoples. They are also continuing to sabotage the corners of world peace and international detente by resorting to the policy of cold war again. Plantation by the imperialists of the network of strategic missiles in Western Europe with the aim of threatening the Sovet Union and other countries of the Socialist Communit, their insistance to produce and stock-pile the neutron weapons and establish military and political alliance with Israel and form special forces for interference inthe affairs of other countries and expansion of the network of their military bases in many areas in the world all this constitutes one of the most prominent evidences that they are hostile to peace and that they want to place humanity before the ghost of a new destructive world war. We in Democratic yemen care very much for the continuation of peace in the Europeancontinent because this is a vital and important question for the establishment of world peace and comes in harmony with our present attitude towards the cause of world peace. We have announced more than once our support for the policy ofthe socialist countries for military and political detente in Europe and expressed our backing for the peaceful policy of the Soviet Union which aims at halting the madness of the arms race and creating superior circumstances before the peoples of the world to live in a world reigned by security andstability. I wish here to point to the efforts being made by People's Bulgaria in this sphere side by side with the efforts of

the socialist countries. Such efforts find admiration from all peoples and countries which value the cause of peace, freedom and democracy because they are noble and just efforts and secure the sympathy of progressive mankind and the forces of peace in the world.

"Comrades. As regards the Middle East the leaders of Camp David plan in spite of thefailure of their policy, are still continuing their conspiratoril plan against our Arab peoples. We in the Yemeni Socialist Party have affirmed repeatedly that the future will not and never be the ally of individual accords and solutions and have also affirmed that the future is with the struggle of our Arab peoples which are paving their way on the foundation of Arab solidarity hostile to imperialism and zionism. People's Bulgaria has stood by the side of the just issues of the Arab peoples topped by theissue of the Palestinain people. We wish to express our admiration for this support which expresses the combat solidarity relations of the Bulgar an people with our Arab peoples.

"Dear Comrade Todor Zhivkov, Dear Comrades, In the area of the Gulf, Arabian Sea and Indian Ocean the imperialists did not learn or gain from thelessons of the past and breach the bases of peace and stability with the bases of tension and conclude agreements for the construction of military bases and for obtaining military facilities. We have announced more than once our rejection of such new movements by imperialism because we seein them a direct threat to our country and a threat to the security and peace of the area and to world peace. If Democratic Yemen has expressed its anxiety over the American imperialist threat then the peace-loving forces inthe world have expressed in turn their solidarity with the peoples of the area for eradicating the source of threat and crushing the imperialist military bases existing there so that the area enjoys stability. We and other revolutionaryes and carriers of the ideas of scientific socialism in the course of the international conflict against imperialism, are confident of the victory of our just issue, the issue of the victory of the liberation of peoples and their social progress, the victory of scientific socialism. Emanating from our internationalist duty we will continue our backing for and solidarity with all peoples fighting against racial discrimination in South Africa and will stand by the side of the struggle of the people of Namibia for determining their destiny and with thepeople of Angola for confronting the atrocious aggression by the racist regime of South Africa. We will also stand with Cuba against any threats or provocations faced by it. In conclusion please allow to express complete confidence that our visit would share in turn in the consolidation and establishment of the panels of the combat relations between the Yemeni Socialist Party and the Bulgarian Communist Party and establishment of the panels of freindship betweenthe peoples ofourtwo countries."

DEMOCRATIC YEMEN CONDEMNS MILITARY MANOUEVRES IN MIDDLE EAST

ADEN, Nov. 10 - ANA - Democratic Yemen strongly condemned the military aggressive military manouevres of American imperialism and its puppets in the Mediterranean and the Western Sahara across the Libyan borders.

An official source in the Foreign Ministry affirmed in a statement made today Democratic Yemen's stand, solidarity and cohesion with the Arab national and progressive regimes and the Arab national liberation movement in confronting the imperialist, zionist and reactionary offensive. The following is the statement:

"The circles of American imperialism, in collaboration with the regimes connected with them in Egypt, the Sudan, Oman and Somalia, started aggressive military manlouvres in the Mediterranean, and Western Sahara across the Libyan borders and in the Sudan, Somalia and Oman across the borders of our republic.

"These aggressive military manouevres of American imperialism and its puppets, inasmuchas constituting a source of real danger and direct threat to the security and safety of the peoples of the area and are part and parcel of the American, zionist and reactionary imperialist plan directed against the national and progressive regimes and the forces of the national liberation

movement for tightening the control of imperialism over the area and establishing its hegemony, are constituting at the same time a flagrant interference in the affairs of the countries of the area and blaze the heat of war and increase the sharpness of tension as well as threaten world peace and security.

"Moreover, it is no secret to the peoples of the area the nature of the aggressive aims for which the so-called rapid deployments forces have been established, American military bases circulated and backing and support for the lifted forces topped by the bid to safeguard their staunches in Oman, Egypt and the Sudan and Somalia which became part of the rapid deployment forces if not their vanguards.

"The aggressive military manouevre in the area and across the borders of our country with the puppet Qaboos regime constitute a natural extension for the treacherous Camp David policy which reached deadlock and which came in time with the start of the practical implementation of the American-Zionist strategic cooperation agreement directed against the rights of the Palestinian people and our Arab peoples.

"Democratic Yemen, which was always keen and still for the security and stability in the area, warns aGainst the great dangers being faced by the Arab nation as a result of these manouvres on the consideration that they are a new evidence of aggression aiming at creating tense atmospheres paving for a direct interference and imposition of the complete hegemony of American imperialism on the countries of the area and their wealths under weak justifications including what is called the safeguarding of its strategic interessts. At a time in which it strongly condemns and deplores such aggressive manouevres, also affirms its stand and solidarity and cohesion with the Arab national and progressive regimes and the Arab nationalliberation movement and is confident that the Arab peoples and the peace-loving peoples in the world, in their combat traditions, would stand firmly for facing the imperialist offensive and proving their ability to check off the aggressive aims of American imperialism, Zionism and reaction."

14 OCTOBER NEWSPAPER: SOMALI PEOPLE CAPABLE OF ERADICATING TREACHERY AND BLOODY TERRORISM

ADEN, Nov. 10 - ANA - The Arabic daily newspaper 14 October said that the "history" of the national struggle of our Arab peoples is full of many combat vocabularies outlined by the masses through their rejection of treasons and were aBle, through t hem, to topple many of the veils and dummies and regimes which sank in the mud of treason, plotting, dictatorship and terrorism.

The newspaper affirmed in its editorial in today's issaue thaT what is taking place in the Somali arena today, including the extensive popular confrontaTion of the ruling regime in Somalia, is regarded as an indication that the Somali people, which was brought up with the spirit of national values hostile to colonialism and zionism and loving freedom, independence and progress, is capable of eradicating treason and bloody terrorism which is lying on its good land.

It pointed out that the Somali regime is living in a crisis which is no secret to any one. This is due, it said, to its adoption of an internal and external policy contravening with the interests and ambitions of the brotherly Somali people and the entire Arab and African peop les.

The newspaper pointed to the stand of Democratic Yemen, as a sister and neighbour country, and its eagerness to warn the Somali rulers against the dangers resulting from the attitude adopted by them especially after they began to outrage the national sovereignty of the brot herly Somali people by allowing the establishment of suspected milit ary bases against the peoples of the area and the peoples of the entire Arab nation and isolation of Somalia from its sincere brothers and freinds after keeping the doors widely open for imperialist

and reactionary interference which is based on looting, blackmailigg and hegemony.

The newspaper concluded its article by saying that if the ruling regime in Somalia has failed in realising its aims through falling in the laps of the forces of imperialism and by deviating the Arab collectivity and showing hostility to the rights of the Arab and African peop les and other exercises which only increase its isolation, deterioration and suffocation in all political, economic and other fields, we have only to remind the Somali regime and others who run to take the lead in the course of hiredom and national treason, to take into consideration the certain end found by puppet and traitor Sadat as a result of his hostile attitude and betrayal of the interests and rights of the Egyptian people and Arab peop les.
